- During your time at CHS, talk to me about some of your favorite experiences (ie. class, club, sports, music).
- We are focusing on our school culture and climate this year as a professional staff goal. Using one word, how would you best describe CHS' culture and climate over your four years here?
- If you were to start a brand new high school, what one "thing" would you transplant from Chelsea High School to your new school in order to ensure its success?
- In what areas do you think we need to improve or focus more on?
- 10 years from now, if you could go back and give advice to an in-coming 8th grade student about your experience at CHS, what would it be?

- What is your overall impression of Administration?
- In which grade(s) did you feel the most stress?
- Questions that you would like talk about or ask me or what is one question you wished that I asked?
