ONLINE MODULE

UNDERSTANDING HUMAN BEHAVIOR THROUGH RESTORATIVE PRACTICES

This online course introduces participants to the social science of human behavior and how to use this understanding to build and repair relationships in a school. Restorative Practices integrate best practices from a variety of disciplines and fields, including education, psychology, social work, criminology, sociology, organizational development, and leadership.

LEARNING TARGETS

Individual participants will gain an understanding of the science behind Restorative Practices and student behavior, as well as the skill to:

- » Identify shame triggers and responses
- » Analyze, measure and improve adult-student relationships
- » Understand the physiological, emotional, and psychological needs of students

WHO SHOULD TAKE THIS COURSE?

Individuals seeking an understanding of social science and who are not primarily in instructional roles but require the use of Restorative Practices (e.g. social worker, school psychologist, secretary, bus drivers, and other ancillary staff).
